

April 3, 2024

Dear Valued Customer,

Taiwan experienced a number of earthquakes on the morning of April 3, 2024. The largest one was at 7:58 AM with an epicenter located in Hualien County (East of Taiwan) reading 7.2 on the Richter scale.

This letter is to inform you that there is NO impact on the Ambiq supply chain and production activities due to the earthquakes.

Ambiq's local offices, foundry partners, assembly sites, and test houses have confirmed that there were no personnel injuries and material supply remains stable. Production and delivery schedules will not be affected.

Ambiq will continue to monitor the situation and provide updated information as appropriate. Should you have any questions, please do not hesitate to contact your representative or email us at [sales@ambiq.com](mailto:sales@ambiq.com).

Your support of Ambiq is extremely appreciated.

Best Regards,

Aaron Grassian

Vice President of Global Sales Operations
